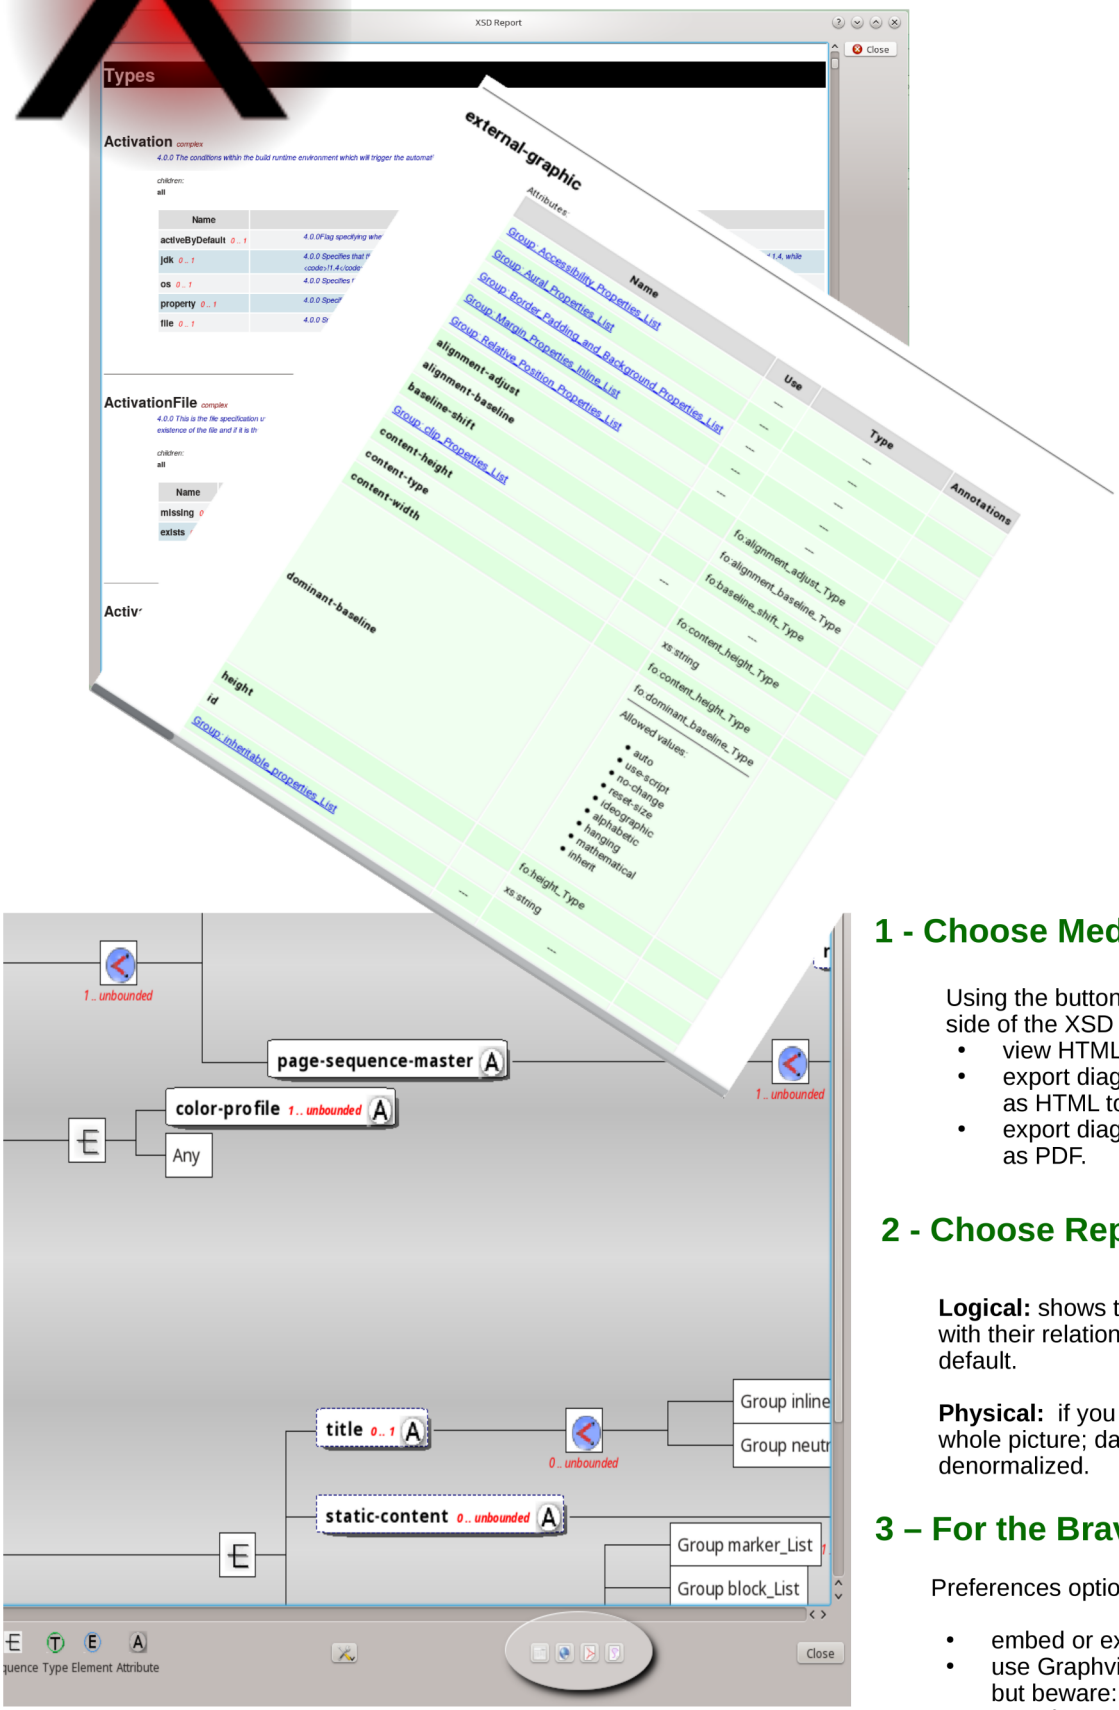
XSD Reports

Select your report type from the XSD view



1 - Choose Medium

Using the buttons on the bottom side of the XSD panel you can:

- view HTML in QXmlEdit,
- export diagram and summary as HTML to a file,
- export diagram and summary as PDF.

2 - Choose Report Type

Logical: shows the components with their relationships; it is the default.

Physical: if you care about the whole picture; data are denormalized.

3 – For the Brave

Preferences options:

- embed or externalize images,
- use Graphviz as chart engine, but beware: support is still experimental.
